Introduction

This booklet summarises the main non-aeronautical charges for Dublin Airport.

- The charges in this document apply from January 1st 2012 to December 31st 2012.
- All charges in this booklet are set out in euro.
- All charges in this booklet are annual charges unless stated otherwise.
- Value Added Tax (VAT) will be applied to charges at the prevailing rates of Irish VAT where applicable. All charges listed in this booklet exclude VAT.
- All users must observe Dublin Airport's Terms and Conditions of operation at the airport. Specifically, users are obliged to abide by the specified Financial, Insurance and Information terms. In particular where specified it will be necessary for customers to provide a valid purchase order in advance.
- Details of Dublin Airport's airport charges as well as the Terms and Conditions of operation may be found on the airport charges pages of the Dublin Airport website (www.dublinairport.com).
- Information on charges not listed in this document such as Dublin Airport property rentals can be obtained on request from Dublin Airport.
- The company reserves the right to vary the terms, conditions and charges at any time.
- Inter alia, Sections 39, 40 and 41 of the Air Navigation and Transport (Amendment) Act 1998 apply.
- General enquiries regarding miscellaneous charges can be sent to: apcadmin@daa.ie

1 Operational

1.1 Access Permits:

All personnel working at the airport are required to hold a valid airport access identity/security permit (that is essentially an I.D. card) with the bearer's photo & details stored on it. In accordance with the National Civil Aviation Security Programme (NCASP) a permanent access permit is valid for 3 years (36 months) and an escorted pass is valid up to a maximum of12 weeks. Where permit replacement is necessary due to normal wear and tear, and the original permit is returned, no charge will be levied for access permit re-issue.

Service	Charge €	Description
Access Permit	**20.33**	**Per Permit**
Replacement of Lost Permit	**48.90**	**Per Permit**
Escorted Pass	**4.51**	**Per Pass**

Note: Companies operating at the airport may specify that the permit-holder pay the charge for replacement of a lost access permit.

For compliance reasons Dublin Airport may insist that a fully refundable deposit be paid at the time of issuance of the access permit. The deposit will be returned when the access permit is physically returned to the Dublin Airport - Access & ID Centre. This should happen within 1 month after the contract of employment between the employee and the employer is terminated.

Service	Charge €	Description
Access Permit Deposit	**30.00**	**Per Permit**

Note: Companies operating at the airport may specify that the permit-holder pay the fully refundable deposit for his/her access permit.

All enquiries can be addressed to:

Vincent McGrath, Access Control Manager Phone 353 1 814 4270
vincent.mcgrath@daa.ie

1.2 Vehicle Permits:

An annual charge applies for vehicles operating airside. A permit is valid for 24 months from date of issue. Private vehicles will not be permitted airside.

Service	Charge €	Description
Liveried Vehicle	**29.40**	**Per Permit**
Replacement of lost disk	**49.00**	**Per Permit**

All enquiries can be addressed to:

Brendan Daly, Head of Airside Operations Phone 353 1 814 4246
Brendan.daly@daa.ie

1.3 Vehicle Escorts:

Mandatory vehicle escorts are required in circumstances where airport users are not authorised/insured to operate in airside areas. At other times users may ask for vehicle escorts to supplement their own operations (i.e. to provide extra security personnel). Customers are requested to contact the Airport Police in advance for such escorts.

Service	Charge €	Description
Vehicle Escort	**49.00**	**Per APF vehicle hour (or part thereof)**

Note: A valid purchase order shall be supplied where vehicle escort services are requested in advance.

If a second or third officer is required, an additional charge is levied based on the number of officers required as per the following:

Service	Charge €	Description
Airport Police Escort	**32.90**	**Per APF officer hour (or part thereof)**

Note: No charge will apply in respect of airport police vehicles and airport police officers attending emergencies.

All enquiries can be addressed to:

Tom O'Rourke, Chief Airport Police Officer Phone 353 1 814 4291
capo@daa.ie

1.4 Aircraft/Tug Escorts

The Airside Management Unit (AMU) provide a 'Follow me' escort service when requested to do so, which may include the movement of aircraft, or positioning of aircraft for the ground running of engines. This tug/aircraft escort includes the services of one officer and vehicle for a period of one hour or part thereof.

Service	Charge €	Description
Aircraft/Tug Escort	**49.00**	**Per AMU vehicle hour (or part thereof)**

All enquiries can be addressed to:

Brendan Daly, Head of Airside Operations Phone 353 1 8144246
brendan.daly@daa.ie

1.5 Aircraft Security:

Normally where additional aircraft security is required by an airline, it is provided by third parties. In the event of Dublin Airport providing such a service the following charge applies. Note that where additional security is required & is being provided by a third party, it may be necessary to provide a vehicle escort to the aircraft, and this will be provided at standard rates. In respect of any request for aircraft security, the company requesting the call-out must provide a valid purchase order in advance.

Service	Charge €	Description
Police call-out	**49.00**	**Per APF vehicle hour (or part thereof)**

If a second or third officer is required, an additional charge (as follows) is levied based on the number of officers required.

Service	Charge €	Description
Airport Police Escort	**32.90**	**Per APF officer hour (or part thereof)**

Note: No charge will apply in respect of airport police vehicles and airport police officers attending emergencies

All enquiries can be addressed to:

Tom O'Rourke, Chief Airport Police Officer Phone 353 1 814 4291
capo@daa.ie

1.6 Fire Service Active Stand-by:

When an airline or handler requests the provision of a Fire Service Active Stand-by unit or units, an active call-out fee applies. The company requesting this service must provide a valid purchase order in advance. The following charge will apply:

Service	Charge €	Description
Fire service active call-out*	**300.00**	**Per APF vehicle hour (or part thereof)**

1.7 Clamping or Towing/Impounding of a Vehicle or Equipment:

A vehicle/piece of equipment that has been found illegally parked or abandoned (whether landside or airside) on airport property may have its wheel(s) clamped in accordance with airport byelaws or be towed and impounded by the DAA in accordance with Airport Direction, Number 4 as follows:

Clamping

The clamp removal fee is inclusive of the first day's charge. An additional charge applies for each subsequent 24-hour period. No liability will be accepted for any damage caused to a vehicle as a result of a clamp having been fitted to the wheel of a vehicle other than that attributable to wilful misconduct on the part of the company.

Towing and Impounding

The costs of towing and impounding a vehicle/equipment are the responsibility of the owner or his/her designated agents. A vehicle and/or equipment will not be released by the DAA to the owner or his/her agents until the appropriate towing/impounding fee has been paid or invoiced. Clamp removal and additional fees per 24-hour periods may also apply. No liability will be accepted for any damage caused to a vehicle and/or equipment as a result of its towing and impounding by the airport authority other than that attributable to wilful misconduct on the part of the company.

2 Environmental

2.1 Compliance/Remediation Charge:

All costs related to identified breaches of environmental legislation and / or the DAA's Environmental Standardisation Document are separate from DAA's Miscellaneous Charges for the lifting & disposal of waste and spillage clean up. Any such regulatory costs incurred will be charged back to the relevant airport users.

Additionally, any airport user causing, permitting or failing to report an incident, will be liable for the full costs of clean up of any such incident. The polluter, or polluters, will pay for all remediation and associated costs (for example: consultancy, testing, disposal, monitoring, administration, etc).

Any such proposed charge following a serious pollution event or identification of a non conformance by an External Regulator in relation to the airport lands, streams or adjacent properties will be communicated to the relevant parties involved as soon as possible.

2.2 Spillage Clean Up:

These charges are designed to encourage users to minimise environmental damage and assist in the conservation of the environment.

Service	Charge €	Description
Minimum call-out charge	260.00	Per spillage

The minimum fee includes the use of one sweeper truck, one bag of dry oil and one hour's labour. Should extra equipment, labour and/or materials be needed, the following charges will apply:

Service	Charge €	Description
Sweeper truck/equipment	81.00	Per vehicle hour (or part thereof)
Bag of Oil Dri	9.39	Per bag
Oil Dri Bag Environmental Disposal	28.48	Per bag
Labour	22.50	Per hour (or part thereof)
Sample Water Analysis	120.00	Per sample analysed

Note: Any user responsible for recurring incidents due to neglect or wilful misconduct may be subject to additional charges.

All enquiries can be addressed to:
Airside:
Brendan Daly, Head of Airside Operations Phone 353 1 814 4246
brendan.daly@daa.ie
Landside:
Myles Reilly, T1 Facilities Manager Phone 353 1 814 1100
myles.reilly@daa.ie

2.3 Aircraft Sewage Disposal:

Facilities for the removal of aircraft sewage are available. The total annual charge will be recovered from users of the airport, based on a user's profile in the previous year. Users will be notified of their constituent charge on an annual basis in February, once the previous year's data has been reviewed. This charge includes an administration charge and the costs associated with the maintenance of the sewage disposal system.

Service	Charge €	Description
Total fee in 2011 (all users)*	33,960.00	

*This charge is zero rated for VAT
All enquiries can be addressed to:

Paul Begg, Head of Asset Care - Dublin Phone 353 1 814 4496
paul.begg@daa.ie

2.4 DAA Provision of Waste Management:

In order to encourage the protection of the environment and the promotion of safety, particularly Airside, as well as the compliant management of waste, DAA provides waste facilities to airlines, tenants, concessionaires and other operators at Dublin Airport. Users who contract to utilise these facilities are then invoiced in line with their overall volume and composition of their waste and the "Polluter Pays" principle. Companies operating at Dublin Airport must comply with all relevant National Waste Legislation.

A 15% administration charge is included within the rates published.

Fixed Compactors:

Service	Charge €	Description
Cardboard	0.10	per kilogram
Food Waste	0.28	per kilogram
DMR (dry mixed recyclables)	0.30	per kilogram
General (wet waste)	0.45	per kilogram

Note: General waste charges may increase during the charges period pro-rata with any increase in government landfill levies, or other disposal/environmental charges or levies that apply.

2.5 Abandoned/Fly-Tipped Waste:

It is the intention of the Dublin Airport Authority (DAA) to promote good environmental practice by all users operating within the Dublin Airport site. With this in mind, Dublin Airport has posted its environmental standards (contained in the DAA's Environmental Standardisation Document) on the the Dublin Airport website. However, breaches of environmental legislation and regulations must be deterred and accordingly Environmental Non-compliance charges apply.

In the event that abandoned/fly-tipped waste is reported to the Airside Management Unit or Outdoor Cleaners in an airside or landside location and the owner of the waste is correctly identified, the polluter will be given a set time to move the waste to the appropriate waste facilities before the following charge is applied:

Service	Charge €	Description
Abandoned/Fly-tipped waste*	250.00	Per incident

*This charge does not attract VAT

Waste must always be appropriately retained at the designated premises of tenants, concessionaires, operators and those businesses operating at Dublin Airport until it is moved directly to the appropriate waste facilities managed by the waste producer or the DAA. Waste left ('fly-tipped') at any common, public, third party location or any location not under the direct control of the waste producer will result in the abandoned 'fly-tipped' waste charge, plus all clean-up and related costs. This charge and any other charges associated with the abandoned waste will apply even if the offending person/company/producer subsequently cleans up the waste to the satisfaction of the DAA.

All enquiries can be addressed to:
Airside:
Brendan Daly, Head of Airside Operations Phone 353 1 814 4246
brendan.daly@daa.ie
Landside:
Myles Reilly, T1 Facilities Manager Phone 353 1 814 1100
myles.reilly@daa.ie

2.6 Environmental Inspection Non-Compliance:

DAA will undertake environmental inspections on a routine basis throughout the airport campus. The environmental requirements for airport users are explained in the Environmental Standardisation Document and the Airport Directions. Should breaches of these standards occur, DAA will issue an inspection report with recommended improvement measures. In the event that the user does not comply with the inspection report recommendations by the deadline set in the report, a charge will be applied on a per inspection basis in addition to any applicable remediation or clean up costs.

Service	Charge €	Description
Non compliance with inspection recommendations	550.00	Per inspection

Notes:

1. Customers are responsible for the maintenance of their own equipment.
2. The Communications Cabling Charges do not apply to analogue and digital lines from Dublin Airport's PABX as these services are charged at different rates- see telephony services.
3. An installation charge will apply for each RJ45 outlet. This charge is for:

a) A new outlet in an area where there is no structured (universal) cabling system in place.
b) An additional RJ45 outlet over and above the normal outlet density where there is a structured cabling system in place.

4. Where civil ducts are not in place or where duct capacity is not available, additional charges will apply. These charges will be agreed with the customer following a site survey and will require a valid purchase order from the customer to proceed with the installation requested.
5. Cat 5 link is the cost of providing a UTP patch lead(s) from customers' network equipment to a wall/floor port.

7 Commercial Property

7.1 Desk Rental Services

Check-In/Bag Drop (inc. Self-Service Bag Drop*) desks may be rented on an annual or an hourly (or part thereof) basis.

Service	Charge €	Description
Check-In/Bag Drop (inc. Self-Service Bag Drop*) Desk	**25,000.00**	**Per annum**
Check-In/Bag Drop Desk	**30.00**	**Per hour (or part thereof)**

*Self-Service Bag Drop (SSBD) desks may be rented on an annual basis only. The installation of a SSBD desk may require the removal or redesign of standard fixed check-in desk to allow the SSBD technologies to be positioned in place of OR directly adjoining an existing weigh-and-dispatch check-in desk belt. The applicant airline/handler will be liable for these associated costs. SSBD technologies will be sourced, installed, maintained (removed and the area made good) by the applicant airline/handler.

Local authority rates for check-in/bag drop/SSBD desks are also applicable and collected by the DAA on behalf of the local authority. Separate invoices are issued by the DAA in respect of rates. Rate changes are notified to customers on their monthly/bi-monthly bills, as they occur.

7.2 Stationary/Mobile Self-Service Kiosks

Mobile or stationary proprietary kiosks are self-service check-in units which are owned by airlines/handlers. Designated areas for mobile or stationary proprietary Self-Service Kiosks (SSKs) on DAA property may be rented on an annual basis.

Service	Charge €	Description
Designated area for proprietary SSK or MSSK use	**1,200.00**	**Per annum**

Note that unlike traditional stationary proprietary kiosks, mobile self-service kiosks (MSSKs) are not fixed to the ground but have wheels, which allow airlines/handlers to safely and easily move the proprietary kiosks to and from the check-in area. Similar to stationary proprietary SSKs, DAA require that proprietary MSSKs be sourced, positioned and maintained by the applicant airline/handler. Proprietary SSK and MSSK units must be located **outside** of the defined queuing space for standard check-in/bag drop desks. During passenger check-in/bag drop operations, proprietary MSSKs access the same campus IT networks used by fixed proprietary SSKs. Proprietary MSSKs must be stored by the user airline/handler at a location within their own licensed support accommodation when not being used for passenger check-in/bag drop operations.

The DAA reserves the right to collect rates on SSKs and MSSKs should they become subject to a local authority rates charge.
