---------------	--------------------------------	----

Absentees:

Mary Grogan	St. Margaret's and The Ward Residents Group	MG
Ray Fox	Irish Farmers Association	RF

Introduction	Action Owner
<p>Chair welcomed attendees to the meeting.</p>	
1. Apologies	Action Owner
<p>JD advised that Sean Costello sent apologies for this meeting.</p>	
2&3. Approval of Minutes and Actions from last minutes	Action Owner
<p>Chair requested approval of Meeting Minutes of 18th May 2021; Minutes approved with status on actions contained therein addressed in this meeting's updates.</p>	
4. Chairman Meetings	
<p>Chair advised that following the last CLG meeting, a call took place between the Chair, daa and FCC representatives to discuss the St. Margaret's The Ward submission. It was confirmed at this meeting that while the CLG is able to discuss any matters that are of importance to members, representatives for FCC and daa cannot engage in conversations, express views or opinions on a topic or documents that have been submitted as part of a statutory public consultation or planning process.</p> <ul style="list-style-type: none"> • PS queried the conditions of planning in 2007 and commented that he does not understand how the submission negates FCC and daa commentary when conditions are already in place. Chair reiterated that as the document is part of a submission in a statutory process, representatives must refrain from engagement. He advised that the CLG was established as a forum for discussion and an exchange of information between the local communities, FCC and daa and this has been the case for number of years. And while certain issues can be resolved through this forum, it is not a decision-making body and doesn't have powers of coercion or decisions. Chair suggested that if the group wish to discuss particular issues, they put together a list or short document and revert with this in advance of the next meeting. • LOG queried if the submission can be retracted from the County Development Plan consultation process. MMA advised this is not possible. • PS agreed to proceed with a new document of issues and advised that the group disagrees with the stance that representatives abstain from discussions. • IC requested further clarification on public representatives partaking in discussions at the CLG on matters which are under consideration as part of a consultation or planning process. Chair advised to follow up with FCC for further information. 	
5. FCC Update – presented by Matthew McAleese	Action Owner
<ul style="list-style-type: none"> • MMA provided an update on the status of the Fingal Development Plan. Advised that over 500 submissions were received to the first stage consultation and that they have now been summarised into a report. This report has been sent to the elected officials with considerations for motions due by 11th August. The council meeting at end August/start September will agree the direction of the county development plan. 	
6. daa Update – presented by Michelle Molloy	Action Owner

<p>MM presented daa's update including international travel changes from July 19th, internal airport road works and North Runway progress.</p> <ul style="list-style-type: none"> • LOG queried why there are no current noise reports on Dublin Airport's website. MM advised that as per Ian Clarke's previous update, the reports were unavailable due to upgrading of the Noise and Flight Track Monitoring System but will be produced and updated on the website in due course. • LOG asked if all North Runway flight routes had now been approved with daa and the IAA. MM advised that the IAA had reviewed the flightpaths as part of their safety assessment, and these are as indicated on the heat maps on the consultation section of North Runway website and VR platform. • LOG queried why Category C and D aircrafts will join the runway at an intermediate access point rather than at the start of the runway. MM advised she will revert with information. • IC queried what is included in the IAA's safety assessment. MM advised it would review the flightpaths' compliance with all safety operations and regulations. IC requested more information regarding the assessment and divergences. MM advised that further information can be found in the first consultation documents regarding the various degrees of divergence and a response will be sought regarding the requested information on the safety assessment. 	<p>daa action</p> <p>daa action</p>
<p>7. Residents Update</p>	<p>Action Owner</p>
<p>No update from residents</p>	
<p>8. Dublin Airport Planning Applications</p>	<p>Action Owner</p>
<p>No queries raised in relation to applications</p>	
<p>9. AOB</p>	<p>Action Owner</p>
<ul style="list-style-type: none"> • Chair advised group to send on any relevant documentation to CLG secretariat prior to the next CLG meeting for distribution to all members in advance. JD confirmed that next meeting will take place on Wednesday, 15th September at 7pm. 	

Next Scheduled CLG Meeting

Wednesday, 15th September 2021

7.00pm – 8.00pm
