

Dublin Airport Supplementary 2024 Quarterly Noise Lmax data for the Day, Evening and Night periods

Q1, Q2, Q3 and Q4 2024

Published 14 March 2025

Revision 1 – 25 August 2025 (Correction due to NMT20 downtime error)

- For 2024, Dublin Airport published four Quarterly Noise and Flight Track Monitoring Reports which are available on its [website](#).
- These reports included measured noise data based on time-averaged metrics including Lden, Lnight and Leq16h, and single event noise metrics including Lmax and SEL.
- Lmax data was presented in the form of the Noise Above (NA) metric, where, for example, N60 is the number of measured and correlated aircraft noise events which exceeded Lmax 60 dBA. Data on N60 through N85 was provided for up to 25 Noise Monitoring Terminals (NMT), where the figures presented were the daily number of events averaged over each quarter.
- Feedback from community members on the reports has indicated a desire to have this NA/Lmax data separated in the different periods of the day, namely the day (07-19h), evening (19-23h) and night (23-07h) periods. These divisions are consistent with the time-averaged metric Lden which is used by the EU Environmental Noise Directive and the FCC/ANCA Noise Abatement Objective.
- This report provides the above as data supplementary to the four 2024 Quarterly Reports and should be read in conjunction with those reports.
- For each quarter, an extract of the relevant report is included, showing the N60-N85 data measured at the NMT, followed by the breakdown of the N60-N85 data for the day, evening and night periods, averaged for the calendar days over the quarter.
- Going forward from Q1 2025, the Quarterly Reports will include this data.

Q1 2024 Lmax and SEL Number Above (NA) data (Daily Average)

NMT	Location	Average Number of Aircraft Noise Events per DAY Above Lmax (dBA) [e.g. N60 = Number of events above Lmax 60dBA]						# Aircraft N Events / DAY	Average Number of Aircraft Noise Events per DAY Above SEL [e.g. N(SEL)70 = Number of events above SEL 70dBA]						# Aircraft N Events
